### REMARKS / DISCUSSION OF ISSUES

Claims 1-22 are pending in the application. Claims 21 and 22 are newly added.

The applicant thanks the Examiner for acknowledging the claim for priority and receipt of certified copies of all the priority document(s).

The Examiner is respectfully requested to state whether the drawings are acceptable.

Claims are amended for non-statutory reasons: to correct one or more informalities, remove figure label number(s), and/or to replace European-style claim phraseology with American-style claim language. The claims are not narrowed in scope and no new matter is added.

New dependent claims are added to at least partially restore the original range of claims that existed before multiple dependencies were removed in the preliminary amendment. No new matter is added.

The applicant thanks the Examiner for providing information about recommended section headings. However, the applicant respectfully declines to add the headings. Section headings are not statutorily required for filing a non-provisional patent application under 35 USC 111(a), but are only guidelines that are suggested for applicant's use. (See Miscellaneous Changes in Patent Practice, Response to comments 17 and 18 (Official Gazette, August 13, 1996) [Docket No: 950620162-6014-02] RIN 0651-AA75 ("Section 1.77 is permissive rather than mandatory. ... [T]he Office will not require any application to comply with the format set forth in 1.77").

The Office action requires an abstract on a separate sheet, which is included herein.

The Office action objects to claims 12, 18, 19, and 20. Claims 12, 18, and 19 are correspondingly amended herein.
